# Braille Alphabet

---

The six dots of  
the braille cell are  
arranged and numbered:

---

The capital sign, dot 6,  
placed before a letter  
makes a capital letter.

---

The number sign, dots 3, 4, 5, 6,  
placed before the characters  
a through j, makes the numbers  
1 through 0. For example: a preceded  
by the number sign is 1, b is 2, etc.
